+ dribbble.com/musavvir

I am a Senior Product Designer with 12+ years designing B2B and B2C digital products across cybersecurity, PropTech, MobilityTech, and HealthTech.

I am experienced across the full design lifecycle - from user research through to production-ready UI - with a strong record of working in agile, cross-functional teams at both startup and enterprise scale. Fluent in AI-assisted workflow, design systems and rapid prototyping.
